Garth Ruffner Landscape Architect offers landscape design and construction observation services in the Greater Sacramento, California area. Based in Roseville, and established in 1993, the company takes on office, retail, housing, industrial, and institutional projects in Central California. Garth Ruffner offers services for clients, designers, contractors, and property managers, including the design of effective planting and irrigation systems for commercial, industrial, and institutional projects. Other projects have included churches, governmental buildings, medical facilities, and housing units.
