Melfast is a distributor of fasteners and hardware offering a wide range of hardware items and materials including screws, nuts, bolts, heads & drives. The company products serve all industries and applications such as pump manufacturers, boat manufacturers, highway construction, modular building, railroad construction, and many others. Melfast offers a full line of non-corrosive, non-metallic, and custom made fasteners suitable for wind, solar, and hydro alternative energy sources. Shipments are made within 24 hours of receiving your order by common carriers or by Melfast's trucks for local deliveries and emergencies. Wholesale, bulk, and custom one-of-a-kind orders are available.
