Island Demo, Inc. is an environmentally friendly demolition contracting company serving Hawaii's construction industry, based in Honolulu. Established in 1988, the full-service demolition and hazardous materials abatement company offers turn-key demolition capabilities, equipped to supply teams qualified to handle the scaffolding and shoring needs required for interior demolition and abatement projects. Its services include complete structure demolition, selective interior demolition and extraction, lot clearing, platform, and shoring erection, asbestos and lead inspections, construction debris removal and material drop off, including high rises and shopping malls.
