Northern Lights Landscaping provides landscape design, construction, and management based in Milford, New Hampshire. Established in 2001, the company's services include residential landscape design, construction and maintenance, hardscape design and development, masonry, landscape lighting, excavating, and snow management. Northern Lights' highly experienced team has streamlined and structured a wide range of commercial and residential outdoor spaces, providing expertise in hardscape and masonry projects, landscape design and lighting, stone patios and walkways, and customized granite veneer installations. The company also revamped previously under-utilized spaces, offering outdoor kitchens and living area designs. A portfolio of the company's work and client testimonials are provided on its website, along with a materials section that highlights and describes some of the options available from Northern Lights Landscaping and information about calculating the material required for its ordering bulk materials.
