Moz Designs is a producer of architectural metal products, distributed worldwide, with its corporate offices in Oakland, California. Founded in Oakland, the company began manufacturing metal furniture and fixtures, but today Moz provides metal architectural products, standard and custom, as well as custom fabrication, and concept development, custom design, detailed drawings, budget prices, and installation drawings. The company's web site offers details of its products and services, a portfolio of its work, video, and case studies. A client list is also featured.
