Monroe Equipment offers a full line of HVAC products to dealers in Wisconsin. The company is headquartered in Menominee Falls, Wisconsin. Founded more than fifty years ago, Monroe Equipment also provides marketing support, business and technical training, and engineering services to its dealers. Its products include HVAC equipment and accessories, boilers, heaters, indoor air quality equipment, and ventilation products, as well as controls, pipe and fittings, sheet metal, test equipment, and tools. Its products may be viewed and purchased through the company's web site, which also includes training schedules and downloadable forms.
