South Shore Roofing is a full-service roofing contractor based out of Statesboro, Georgia, specializing in installing new roofing systems on residential buildings, including homes, additions, shops, and garages. South Shore Roofing offers:

Asphalt Shingle Roofing Installations: If you want the most affordable option for your roofing system, then it's usually a 3 tab asphalt shingle that you'll end up with.

Architectural Shingle Installations: Architectural or "dimensional" shingles are a popular option for homeowners who really care about their roof's appearance along with the overall high quality of their shingle.

Metal Roofing Installations: If you're looking for the ultimate durability and longevity out of your roofing material, then a standing seam metal roof is a great choice. Whether you need a new asphalt shingle roof installed on your home or a new standing seam metal roof for your shop or barn, the team at South Shore Roofing will be able to help you make the right decisions when it comes to your roof.
