SodaGlass, in San Leandro, California, fabricates and sells many types of back-painted glass to trade only. The company is revolutionizing the contemporary home by solving the mildew and mold build up in the bathroom areas. Customized with just the right splash of colored glass, Soda Glass eliminates hard water stains and adds a touch of beauty to any bathroom. It can also be used to spruce up the vanity, sink backsplashes, tub skirts, and any walls. Coated glass is combined with treatments that make the surface easy to clean and extremely durable; all needed for a clean bathroom is a sponge or squeegee. Soda Glass has many different breathtaking finishes and textures like metallic, textured stripes, and granite to add richness and balance to any bathroom. This product can match all leading paint manufacturers, including Benjamin Moore, Sherwin Williams, Kelly Moore, and many others. Computer color matching is also available.
